RE: Outreach to Teach
Friday, April 8 at 5:30pm

Hello Conference Attendees!

I am very excited to announce this year's **Outreach to Teach Service Project**, which will be held in conjunction with the 2022 Student PSEA Conference and Convention in Erie, PA. The school selected for this year's project is McKinley Elementary in Erie Public School District. This year, we are working within one building to focus on the beautification projects that we hope are going to create a more encouraging and fun learning environment. The OTT Committee has visited the school and we are positive that this community is more than deserving of Student PSEA's passion to serve.

The Outreach to Teach Committee has been working diligently to ensure this year's community service project runs more smoothly, effectively, and unites student members with a common purpose to serve the community. Our purpose is to make a difference in the lives of those who daily attend or work at McKinley Elementary, as well as the surrounding community. This community service project is an engaging and exciting experience for every aspiring educator at our conference. You have the opportunity to meet and collaborate with aspiring educators from all across PA to serve those students and teachers as well as our future profession.

Every conference attendee will be encouraged to join the Outreach Project on Friday evening and wear their conference T-shirt to the event. Dinner will be provided Friday evening at the school.

If you have attended conference in the past, you will notice a change when registering for OtT. When registering for conference, you will select your Breakout Sessions, but you will not be selecting a specific project to work on. Instead, we have decided to have a randomized selection process in order to branch out more and collaborate with a greater number of aspiring educators. At the beginning of conference, you will receive a colored wristband with the corresponding color on your badge. These colors will correspond with the specific projects. As in past years, each project will have two team leaders to ensure that the projects run as smoothly as possible!

I am looking forward to seeing you there on April 8th!

In Solidarity,

Sabreena Shaller, Student PSEA President
